

Woodman

WOODMAN

DE23SEC Dust Extractor

Optional Accessories

Poly bags (pkt 10) or roll 100

Hose Clamps

Flexible Ducting

Spiral Ducting

Features

For small to medium workshops

Separates the bulky wood waste from the air system as it enters the dust collection chamber

Cyclone is designed to remove potentially destructive objects before they can enter the impeller

The cyclone is more efficient because it consolidates saw dust into an easy to empty container

Automatic cleaning of canister internal filter brush, automatically cleans filter when cyclone fan is turned off
